

Model 350 SVD

Safety Voltage Detector

IP65

CE

Features

- Protection class: IP65
- Bright LED visual indication
- Audible indication
- Non-contact voltage detection: 220Vac ~ 132kVac
- Wide angle voltage detection
- Frequency range: 40 ~ 70Hz
- Easy-to-prove method
- Self-test function
- Power source: 9V rechargeable battery
- Non-contact detection by proximity
- Flashlight function
- Operating temperature: 0°C~50°C
- Humidity: 80% RH Max
- Lightweight, robust and compact
- Comply with EN 61326-1

350 SVD has a wider angle for voltage detection (about 160°)

Attached the detector on your arm with the elastic cord for voltage detection

Hoyt Electrical Instrument Works, Inc.

Model 350 SVD

Safety Voltage Detector

- (1) ON/OFF switch
- (2) SELF TEST button
- (3) Flashlight
- (4) Rotatable part for flashlight
3 different angles can be set by rotating this part.
- (5) Visual alert LEDs
- (6) Buzzer
High noise level buzzer triggered on voltage detection.
- (7) CHARGE LED
 - When this LED glows "red", which means the detector is under charging
 - When this LED glows "green", which means the charging process is complete. The 9V rechargeable battery is fully charged.
- (8) Bracket
- (9) Battery-charge socket - for AC adapter connection.
- (10) Flashlight switch
 - Switch to the upper position to turn on the flashlight.
 - Switch to the lower position to turn off the flashlight.
- (11) Protection cover
For flashlight switch and battery-charge socket.
- (12) Elastic cord - for attached into the bracket.

Specifications

- AC Voltage detection: 220Vac ~ 132kVac
- Frequency range: 40 ~ 70 Hz
- Operating temp.: 0°C ~ 50°C
- Operating humidity: 80% R.H. Max.
- Weight: Approx. 137g ((battery included)
- Dimension: 110(L) × 68(W) × 35(D)mm
- Power source: 9V Rechargeable battery
- Safety standard: EN 61326-1

Accessories

- Instruction manual
- AC adapter
- Elastic cord
- Bracket
- Carry case
- Tape (2 pcs)
